

## Work

Since the age of 15 I knew I wanted to do "my thing" but for many years found it hard to get to the very point of WHAT exactly - except the idea of being a philosopher, laying on my bed the whole day and thinking smart thoughts (that then somehow should be turned into money ... still working on that one).

**Workwise I found "my first real thing" in 1999 as I decided to go for entertainment in general and DJ:ing specifically.**

- I set up Colognes first smoke free and alternative disco "TanzSpass" in 2000 (Bare foot boogie like) It's still rocking
- In 2004 event comparing /presenting was added
- Since 1999 it must have been around one thousand various partys, see my DJ section for details [goto DJ \\* Voice](#)
- Presentation, i.e. to officially present Sweden in the field of tourism

My catalogue of "jobs for a living" is wide: newspaper man, hospital worker, bus driver, street market salesman ... I probably have forgotten some.

**Some more important occupations before my "real" self employment.**

- Administration and running the office of Lilla Teatern, Lund, 1987 - 1988
- Translating from English and German to Swedish, 1990 - 1991, 1997
- Stage design, theatre technician, Lund 1989, Side in Turkey 1991
- Teaching Swedish in Berlin 1992 - 1994
- Software Sidoun, the company world of constructional engineering and architecture 1994 - 1996
- Sales of golf equipment in 2000

## Native Speaker

- My voice has been used professionally since 2003. See my native speaker section for details [goto DJ \\* Voice](#)
